

I am hoping that you do not allow companies to own multiple news sources and allow media monopolies in each, or any community. This is the first time I have contacted any government office to voice my opinion on a matter, I do feel strongly on the matter. The only place I have heard about this is through the internet and PBS. Considering how important of a matter this is I feel that the lack of coverage of the issue gives validation to the fact that this easing of regulation would be harmful to the public.

Thank you for giving me a place to voice my opinion on the issue.

Sincerely,
Craig C Noble
